Key Projects

Enfield Town Liveable Neighbourhoods

Complete: 2018

Scope: Concept, Fundraising & Consultation

Client: LB of Enfield (Traffic)

The preparation of a Liveable Neighbourhoods funding bid for sustainable transport improvements to a number of key routes and spaces within Enfield Town. All proposals were based on Transport for London's Healthy Streets approach. The project required substantial stakeholder engagement to develop a robust, widely supported bid document.

St Ignatius College, London

Complete: 2017

Scope: Concept, Planning, Detail Design, Tender, On Site

Client: St Ignatius College

The redesign of the external environment to a large comprehensive school in Enfield. Sustainable Urban Drainage Solutions (SUDS) were applied throughout the project to resolve issues with regular flooding. Careful consideration had to be given to existing trees on the site, the majority of which were covered by a blanket TPO.

Turkey Street Station, London

Complete: 2017

Scope: Consultation, Concept, Detail Design, Procurement

Client: LB of Enfield (Traffic & Transportation)

The redesign of the public realm around Turkey Street Rail Station, carried out in conjunction with building improvements. The design created a pedestrian focused space which connects the station forecourt to the park opposite. The proposals introduced new cycleways linking existing cycle routes and included traffic calming measures.

Monmouth Road Green, London

Complete: 2017

Scope: Concept, Consultation, Detail Design, Procurement, On site

Client: LB of Enfield (Conservation)

A new pocket park in a sensitive setting adjacent to Grade II listed terraces. The design intended to complement the buildings, and included features such as natural stone paving with quotes from Daniel Defoe's writing about the area. The project received a BALI award in 2017 in the Community & Schools Development Category.

Albany Park, London

Complete: 2017

Scope: Concept, Detail Design, Procurement, On site

Client: LB of Enfield (Highway Services/Parks Department)

Proposals for external works to revitalise entrances, links and interventions to this large public park. Solutions included mature tree planting, playful 'boulder trails' and steel elements with laser cut wording based on stories about the area. In addition, a large inclusive playground for children of all ages and abilities was designed and implemented.

Angel Gardens, London

Complete: 2015

Scope: Fundraising, Consultation, Concept, Planning, Tender, On site

Client: LB of Enfield (Regeneration)

Angel Gardens is a 1.5ha new public park situated adjacent to Angel Road train station. The project challenges included the remediation of contaminated land and a site watercourse. The design incorporated new footpaths and cycle links to the station, play areas for all ages, a free running trail and a community garden.

Key Projects

Holmesdale Open Space, London

Complete: 2013

Scope: Fundraising, Consultation, Concept, Tender, On site.

Client: LB of Enfield (Highway Services)

The regeneration of a 700m long open space on top of the Holmesdale Tunnel, Waltham Cross. Constraints imposed on the landscape design included loading limitations and shallow soil depths. Key features included substantial areas of planting, communal gardens, footpaths, a small orchard and playful granite cubes to mark the Enfield/ Broxbourne boundary.

Ponders End Park, London

Complete: 2012

Scope: Consultation, Concept, Detail Design, Tender, On Site

Client: LB of Enfield (Regeneration)

The landscape design for a park improvement scheme. It included a new market space, a water feature, lighting, additional footpaths, cycle links, large areas of planting and mature tree planting. Substantial community engagement work took place and much of the planting was done by local residents, overseen by the design team.

Enfield Play Pathfinder, London

Complete: 2011

Scope: Concept, Planning, Detail Design, Tender, On site

Client: Enfield Play Partnership

The Play England funded Play Pathfinder programme consisted of 26 new and improved natural playgrounds in the London Borough of Enfield. These were delivered in stages over a two year period and included the Arnos Park Play Area which won the Street Design Award for 'Best Children's Play Space' in 2012.

Turkey Street Gateway, London

Complete: 2011

Scope: Concept, Consultation, Detail Design, Tender, On Site

Client: LB of Enfield (Highway Services)

Landscape proposals to reinvigorate the tired public realm around Turkey Street and the nearby Waltham Gardens. Extensive work with community idea generating groups resulted in the use of wording and imagery relating to the area being etched onto bespoke site furniture. An artist was commissioned to develop playful artwork to complement these features.

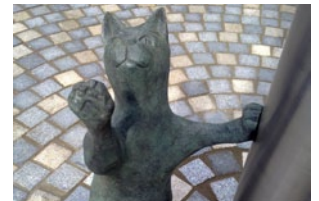

Florence Hayes Gateway, London

Complete: 2010

Scope: Concept, Planning, Detail Design, Tender, On Site

Client: LB of Enfield (Highway Services)

The landscape design for a high quality public space at an overlooked site on the public highway. Landscape design proposals were coordinated with the work of two public artists to create a striking design with glimpses of site history. Works included new hard landscaping areas, planting areas, mature tree planting and pieces of public sculpture.

Primrose Hill, Huddersfield

Complete: 2009

Scope: Concept, Tender

Client: Kirklees Council

Architect: Cartwright Pickard

The design and creation of a new home zone in an existing residential area in Huddersfield. The project included high quality shared surfaces throughout the site, revised parking solutions, street tree planting, a new public square, a play area and improvements to existing footpaths and sports facilities.

Ponderosa Eco Village, Heckmondwike

Complete: 2009

Scope: Outline Planning

Client: Howard Cook Builders Ltd

Architect: Cartwright Pickard

A proposed new housing development on a complex 9ha greenbelt site which included an existing woodland and a former quarry. Responsible for the preparation of a landscape strategy and site masterplan for an outline planning application. In addition our input was required into the associated BREEAM assessment.

Manvers Lakeside, Wath-Upon-Deerne

Complete: 2009

Scope: Conditions, Tender

Client: Express Parks / Taylor Wimpey

The preparation of a landscape design for a mixed use development set within a parkland of high amenity value. The landscape proposals consisted of landscape zones for leisure, amenity and residential uses. Of particular importance was the need to minimise the environmental impact of the development on the surrounding countryside.

Key Projects

Garrick Square, Lichfield

Complete: 2008

Scope: Concept, Detail Design, Tender

Client: Lichfield District Council

Garrick Square is located on a main pedestrian route linking Lichfield Station with the Friarsgate development. These landscape proposals were developed as a pedestrian focused space which accommodates occasional vehicular use. The proposed square forms a welcoming entrance and outdoor resource for the adjacent Garrick Theatre.

University of Leeds, Leeds

Complete: 2008

Scope: Concept, Planning

Client: University of Leeds

Architect: Sheppard Robson

The development of landscape designs for a number of key locations identified in the University's Strategic Development Framework for the University of Leeds City Campus. Levels presented the main design challenge, as there were a significant number of existing trees and DDA compliant access routes were require throughout the campus.
